Dear Ray and Gail,

We feel so fortunate to have found your kennel just when we were ready to buy a Rottweiler puppy. It was obvious from the very first telephone call we made that you cared very much for your dogs. We had to prove to you that we would be loving and responsible owners! We fell in love with your Rottweilers when we made our first visit to your place. The kennel area was immaculate and so spacious. We felt like honored guests when you brought each of your dogs out to meet us. They were all so majestic and impressive! It was very reassuring to meet not only the parents, but also the grandparents of our future puppy.

It was so exciting to track the puppies' growth and development with your weekly pictures. You were amazing with the camera in capturing their antics and in relaying stories that allowed their nature to peek through.

Once we got our puppy home it was so much fun to keep you posted on his progress and be able to ask you for advice. Our puppy has grown into a very handsome and intelligent adult. Everywhere we go with Thunder people stop and admire him. Our veterinarian, Dr. Pat Allen, thinks Thunder is one of the finest Rottweilers he has ever seen. Of course, we absolutely love him and think he is wonderful.

Ray and Gail, you do a wonderful job breeding and raising Rottweilers. Your love of the breed and the pride you have in your Rottweilers shows in every detail of your care. The results are some spectacular Rottweilers. We are looking forward to adding another one of your Rottweilers to our family soon.

Sincerely yours,

Doug and Jan
